Briefing Outline

- Introduction
- 0 – 3 Year View
- Management Overview
- Technical & Architectural Overview
- Our Vision
- Recommendations

0 - 3 Year View

- SAP product evaluation, skillset remix
- Center for the Study of Healthcare Supply Chain Ma
- ID interim PDU - Cardinal, McKesson, ANSI (?)
- Business Case - Strategic Plan development
- Medical Threat Model
- BSM Conversion

Systems Work

- BSM Conversion
- MEDLIFE/ERP/SAP
- ECAT Evolution
- MECA
- Net-Centric UDR
- Data Synch, RFID
- Develop EA System Support Requirements

The Vision Compone

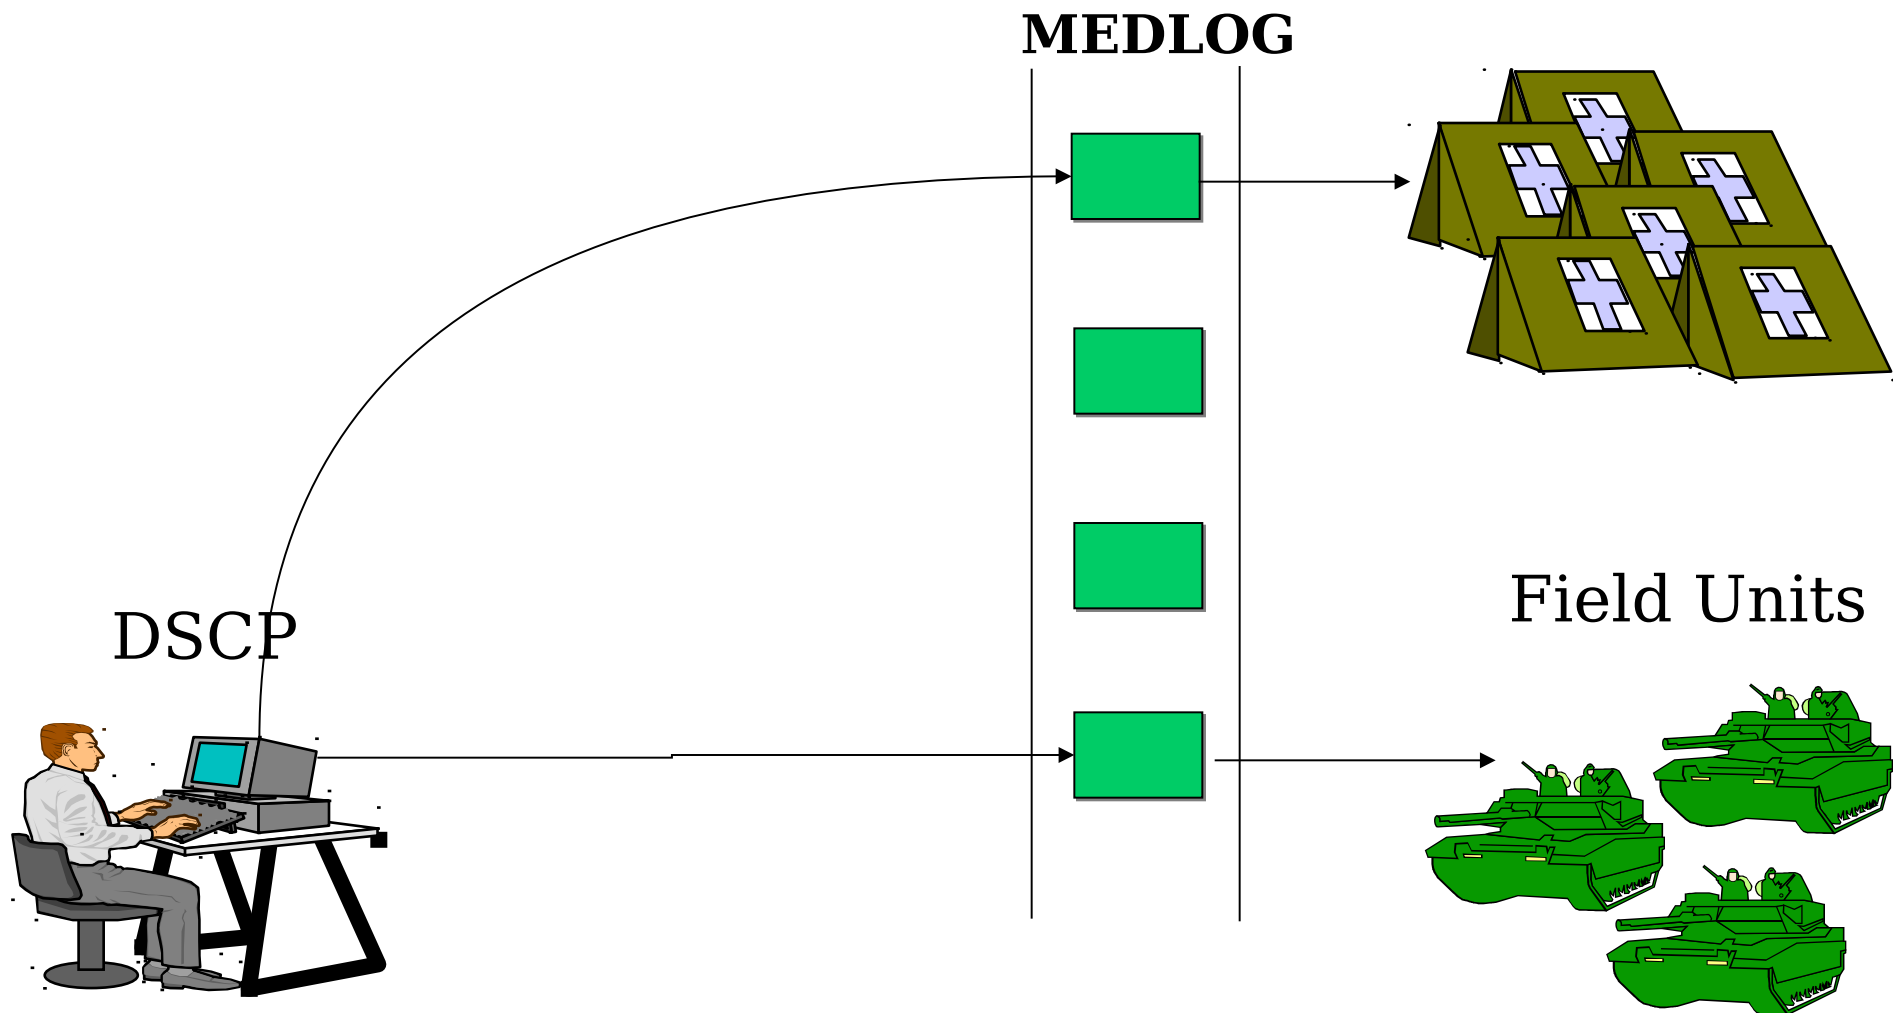

- A vision is an attempt to *articulate* what a desired future for a company would look like. It can be likened to "... an organizational dream-it stretches the imagination and motivates people to rethink what is possible."
- Visions are *big* pictures.
- A vision is not the same as a mission.

DMLSS-W Vision Component

- Develop & provide healthcare logistics, operational business intelligence tools (Retail & Combatant Com data mining, trend analysis, product availability, etc.
- Facilitate requisition and material management support directly to forward-deployed units
- Establish the Center for the Study of Medical Supply Chain Management

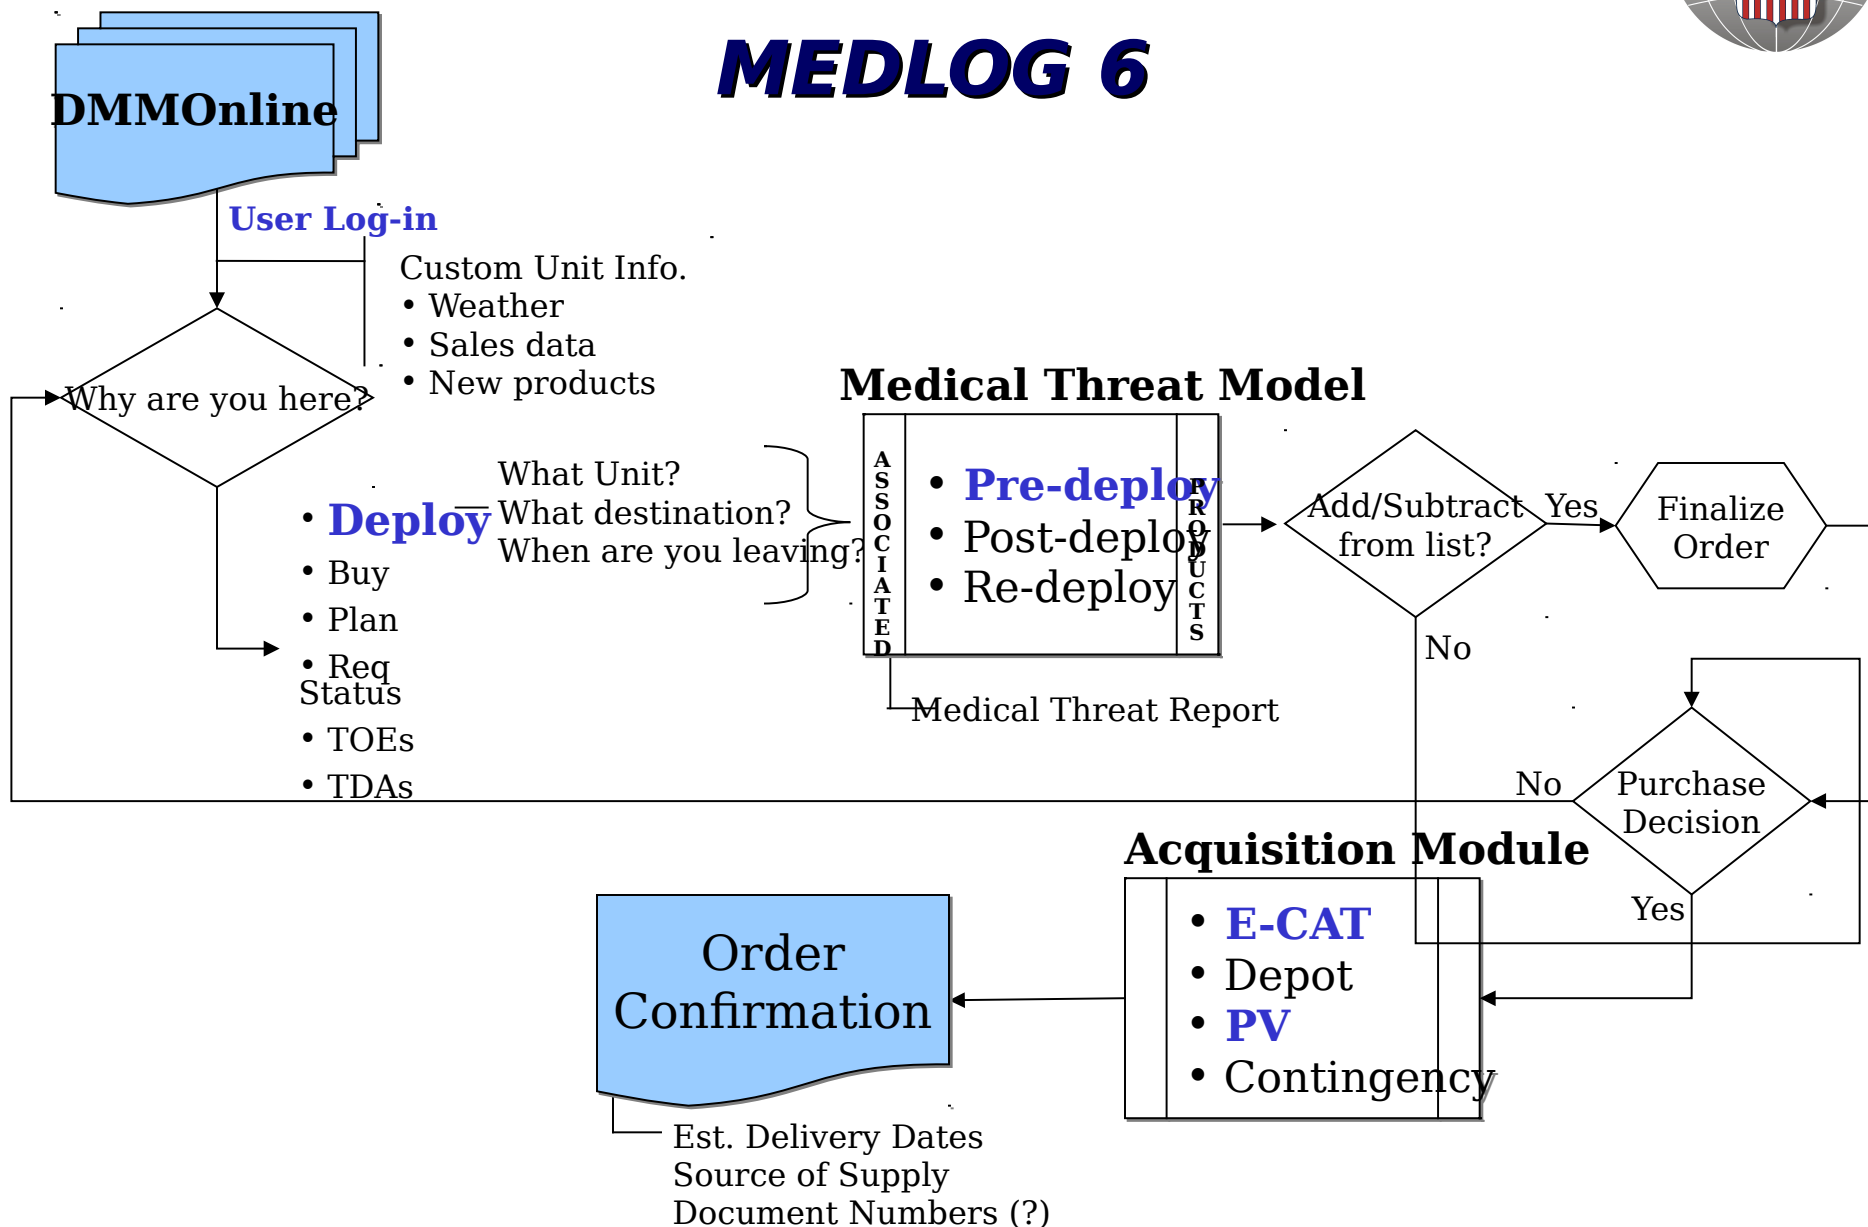

DMLSS-W Vision

DLA/DSCP = Account Manager

DMLSS-W Vision (continued)

MEDLOG 6

DMLSS-W Technology & Architectural Overview

**Ms. Maria Zmurkewycz
Project Integrator, DMLSS-W
e-mail: maria.zmurkewycz@.**

DMLSS-W Today

- Current technologies
- Distributed architecture
- DoD/Federal Medical Catalog Manager
- PV program support
- Customizable SW development processes
- Readiness Support
 - Every day & in every crisis

Near-term S/W Upgrades

➤ ECAT Evolution

- GUI re-design
- Database optimization
- .NET migration
- Incorporate DoD/DLA security standards

➤ DAPA/MECA Reengineering

- Web-centric interface
- Pull full catalogs from Suppliers
- Manufacturers & Vendors able to add Pricing & Packaging
- *MECA = Single Standard Federal Catalog*

MEDLIF E

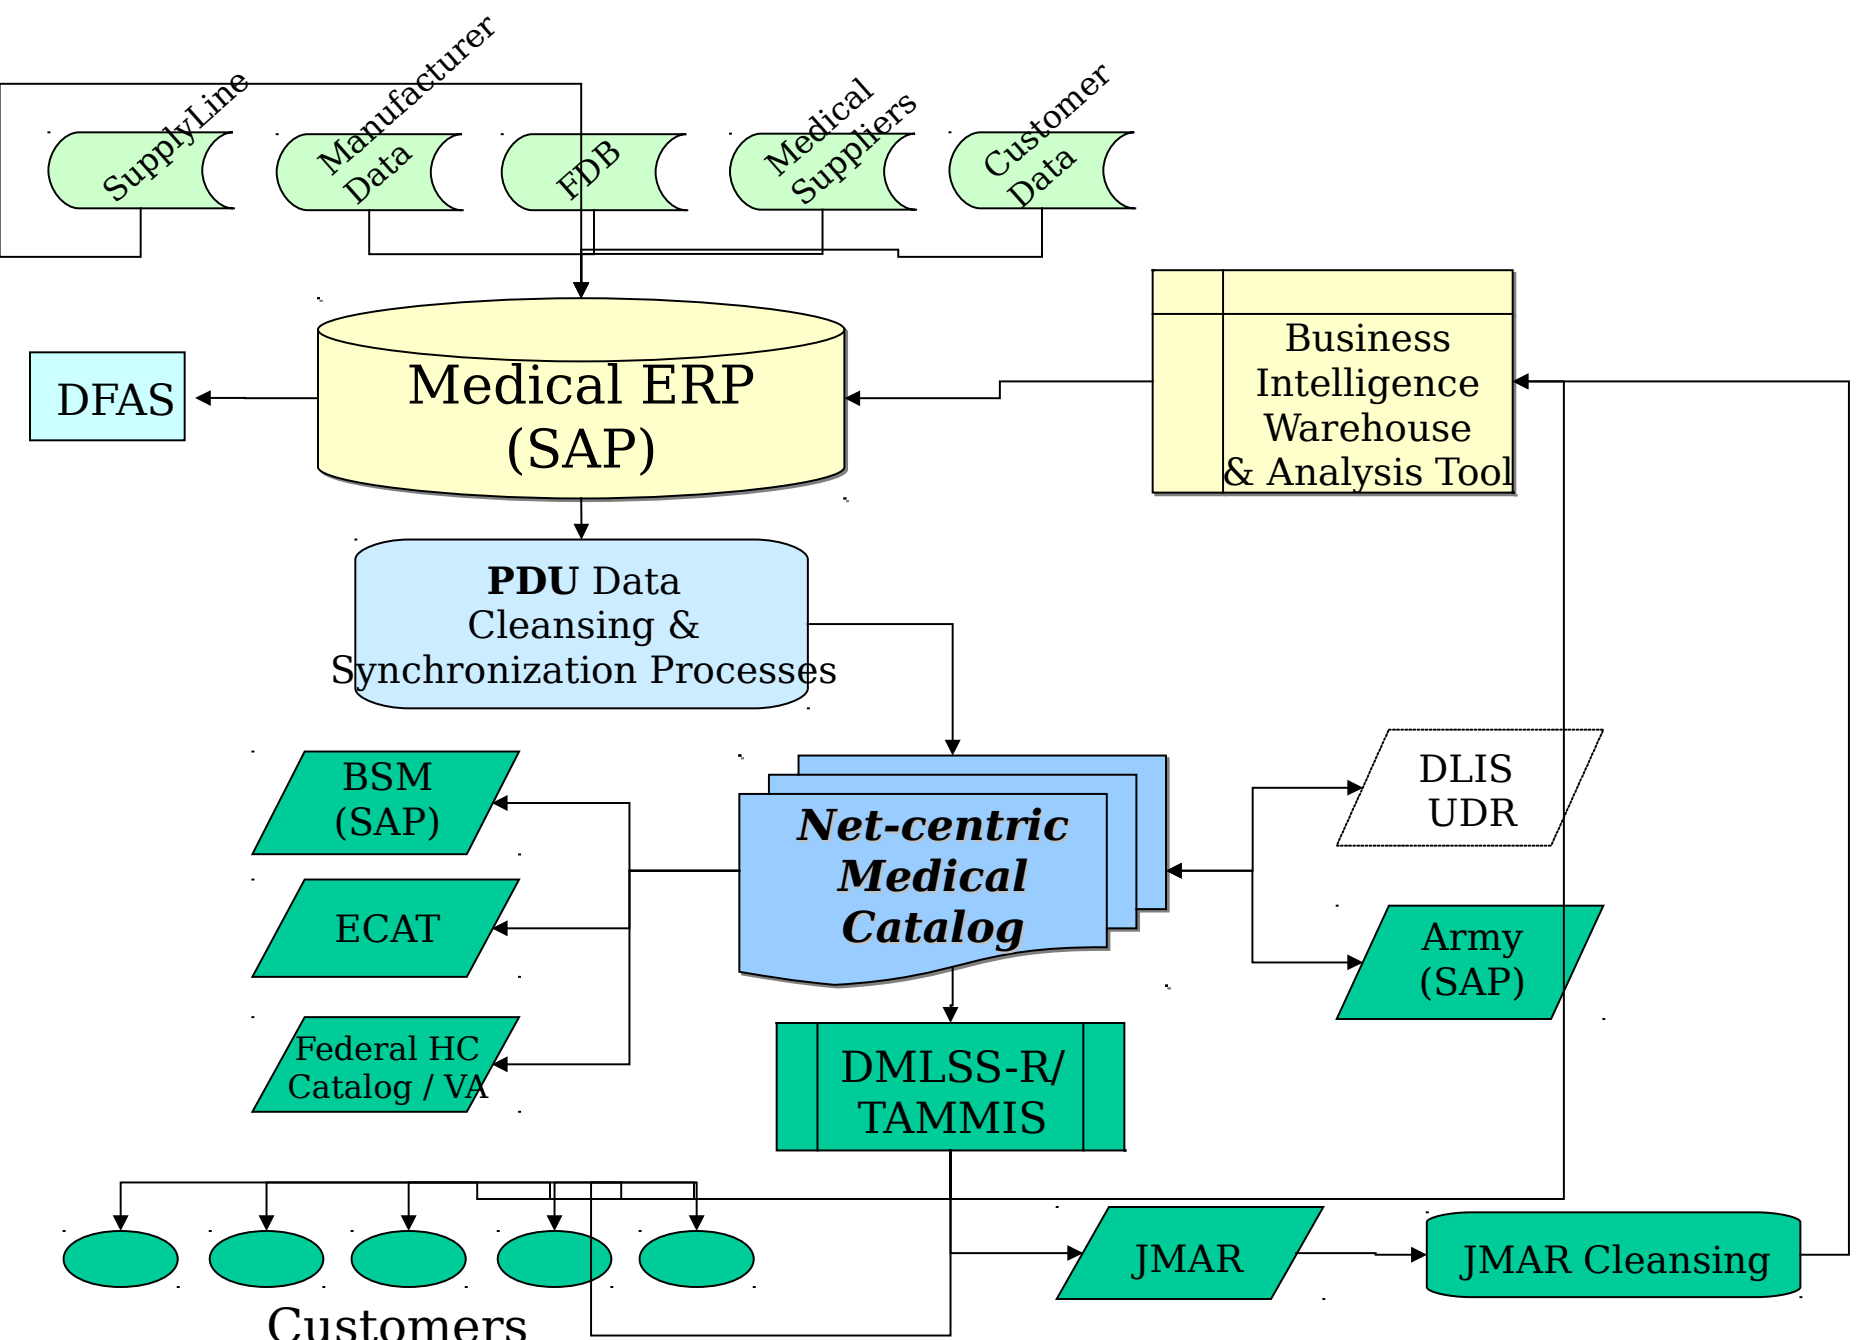

- Data Cleansing & Synchronization
 - **Comergent deliverable (algs) integration**
- Database Convergence
- ERP - determine usability of SAP tools
 - **NetWeaver**
 - Open, pre-integrated architecture
 - Platform to develop & deploy custom-built apps
 - Interoperable w/ industry standards - Oracle, .NET, J2EE
 - **Master Data Management**
 - Data cleansing & synchronization engine
 - Data element-level customization
 - Matching percentage & weighting thresholds
 - Integrated messaging & analytics
- Component Framework
 - **Common, shareable objects**
 - **Web services suite**

Data Synchronization

- **Medical Supplier Directory (CDMIA)**
 - Potential D&B Interface
 - Key enabler of Fed Data Synch effort
 - Will be leveraged by VA MECA
- **Recommended Products of Choice (RMA)**
 - Better commercial product-to-NSN requirements mapping
 - Enables standardization of Readiness requirements
 - Flags assembly standardization opportunities
- **Contingency Automation Application**
 - Sourcing engine identifies data anomalies
 - Synchronizes items ordered with items available
- **Recurring Data Feeds**
 - 27 feeds from multiple DMLSS-W sources
 - Tasked w/ recurring feeds in follow-on SOW

DMLSS-W - 1 to 3 year

- DoD/Federal Medical Catalog Manager
- MEDLIFE/SAP tools integration
- ECAT Evolution
- DAPA/MECA Reengineering

Recommendations

- DMLSS-W the catalog for DoD Medical
- Enforce discipline in identification of Commercial Products & Sources of Supply
- Identify data synchronization system improvement requirements for MedSurg PV Gen III contracts
- Business Intelligence Hub is at DSCP
